

Characteristics

- Coal active filters to eliminate fumes and odours
- CAFG model with pelleted coal active panels
- CAFP model combines the active coal with fibers and synthetic microfibers
- Rigid casing made of propylene completely incinerable
- Multi dihedral rigid panels
- They have to be associated to a high efficiency filter to optimize its efficiency and durability

Specifications

| Model | Dimensions (mm) | Efficiency Average (%) | Efficiency EN 779 | Carbon (kg) | Air Flow (m ³ /h) | Initial Pressure (Inc. Pa) |
|-----------|-----------------|------------------------|-------------------|-------------|------------------------------|----------------------------|
| CAFG 1224 | 287x592x292 | - | - | 8 | 1700 | 70 |
| CAFG 2024 | 490x592x292 | - | - | 12 | 2800 | 70 |
| CAFG 2424 | 592x592x292 | - | - | 16 | 3400 | 70 |
| CAFP 1224 | 287x592x292 | 0,85 | F7 | 2,1 | 1600 | 100 |
| CAFP 2024 | 490x592x292 | 0,85 | F7 | 3,6 | 2400 | 100 |
| CAFP 2424 | 592x592x292 | 0,85 | F7 | 4,4 | 3200 | 100 |
