

Characteristics

- Backward curved impeller
- Special solid construction in enameled sheet
- Motor not included (to be calculated depending on working point)
- Belt driven device not included (to be calculated depending on the motor)
- The price includes the transmission protector and the support
- Special versions for high temperatures optional
- 16 possible orientations

Specifications

Model	Power (W)	Speed (rpm)	Air Flow (m ³ /h)	Maximum Pressure (Pa)
GR 1000/T	37	2400	40000	3900
